Audits

Learn about the audits for Uniswap v3

Audits

In early 2021, ABDK Consulting performed a general security review and thereafter published an audit report for the Uniswap v3 core contracts in March 2021 prior to its release. [Read the report.](#)

In April 2021, ABDK Consulting also published an audit report for the Uniswap v3 Periphery contracts. [Read the report.](#)

During the week of January 4th, 2021 and from February 15th to March 12th, three engineers from Trail of Bits conducted a security review on the Uniswap v3 core contracts and subsequently published an audit report including results from [Echidna end-to-end tests](#) and [verification](#) from the symbolic execution tool Manticore. [Read the report.](#)

Bug Bounty

Uniswap has an open and ongoing [bug bounty program](#) on Cantina.
